Building the AI & Blockchain Bridge Between China and the World

PICC InsurTech Innovation Forum

David Lake, International Director
Singularity Intelligence Technology

Beijing, China
October 23, 2019

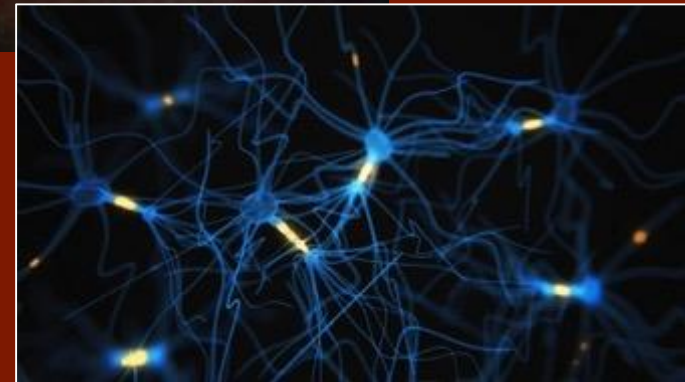

**PICC – CHINA’S LEADER IN
THE WORLD OF FINTECH**

**...SIGNS STRATEGIC
PARTNERSHIP WITH...**

**SINGULARITYNET – THE
WORLD’S LEADING
DECENTRALIZED
BLOCKCHAIN FOR AI
DEVELOPERS**

**THE FINTECH UNIVERSE
JOINS WITH THE...**

**...MASSIVE POTENTIAL OF
ARTIFICIAL INTELLIGENCE**

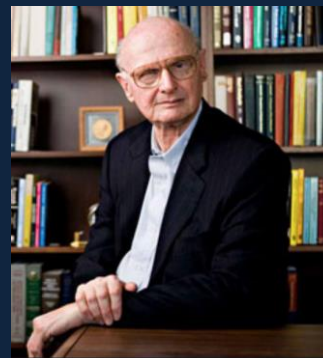

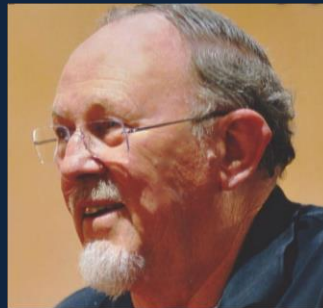

This cooperation will apply AI and blockchain technology across the PICC product line through an ecosystem that provides inovative solutions. The focus is on AI-enabled marketing, linguistics and voice recognition, smart evaluation and settlement of claims, and use of blockchain to manage supply chain and identify fraud.

Ongoing Fintech Revolution

US fintech thinkers led the way in developing fintech theory

In the late 1980s the Japanese went on a buying spree for the greatest fintech minds

Next round of breakthroughs will be led by AI and blockchain

(top) Barr Rosenberg designed the multifactor equity risk model

(middle) Winner of 1990 Nobel Prize in Economic Sciences, Sharpe was an originator of the capital asset pricing model

(bottom) Harry Markowitz one his Nobel Prize in Economic Sciences for work that included Modern Portfolio Theory

SINGULARITYNET RULES

Exclusive incubator and promoter of Rejuve is SingularityNet, a Netherlands-incorporated non-profit Foundation

The world's first and foremost decentralized blockchain platform for AI development raised some US\$36 million in just 60 seconds for its 2017 ICO

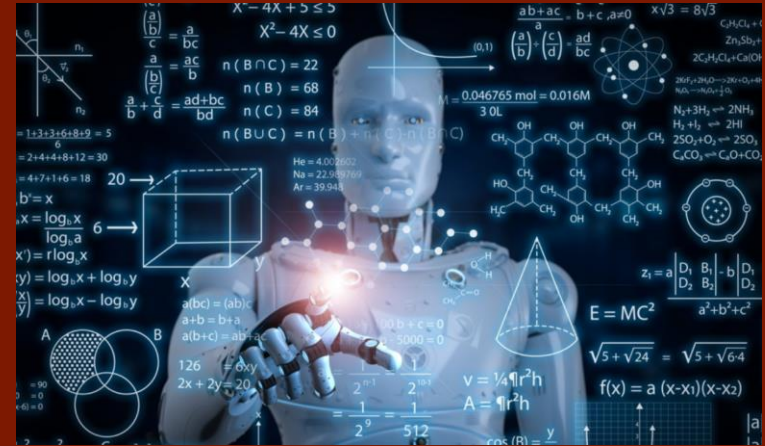

Dr. Ben Goertzel
Father of AGI and Sofia the Robot

PICC SERVICE ROBOT IS ON THE WAY

Well trained robots can certainly perform many of the necessary fintech tasks better and faster than humans

Ability to manage data and distribute key financial information on products and services is something robots can do with relative ease

Services robots will make their way on to the fintech world stage very soon

Sophia and Ben talk fintech with the Prime Minister of Malta

BRIDGING INTERNATIONAL AND CHINA AI CULTURES

It is essential that cultures work together to create leading edge AI

Education and cooperation will be key focuses of our support initiative at the Incubator Accelerator

The AGI Society brought Chinese and global AI thinkers together

AGI SOCIETY 2019 MEETING HELD IN SHENZHEN

THANK YOU!
